DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, 25-35, and 37-38, drawn to a method of conditioning a planarizing surface in a chemical mechanical polishing (CMP) apparatus, classified in class 438, subclass 689.
- II. Claims 21-24, drawn to an apparatus for conditioning polishing pads used to planarize substrate by the removal of material therefrom, classified in class 216, subclass 52.
- III. Claim 36, drawn to a computer readable medium comprising instructions being executed by a computer, classified in class 703, subclass 7.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)).

In the instant case, the process as claimed can be practiced by another materially different apparatus such as one in which the human interface can be substituted for the computer medium in the chemical mechanical polishing (CMP) process.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
